

DIVANGI SHAH

CONCEPTUAL DESIGNER

ABOUT ME

Hi! I am a conceptual designer, sustainability enthusiast and a future social entrepreneur. I call myself a conceptual designer because I believe design can never be restricted to any particular form or medium. I can best express myself when I am working on projects for a social cause. Being an experimenter and a cross-pollinator I want to explore the possibilities of design to make the world a better place.

My interests lie in editorial design and packaging. Apart from this, I am a strong believer in destiny. I enjoy drinking wine, eating panipuri, having honest conversations and collaborating with like-minded people.
